Re: Letter of Recommendation
Issue: Arco Electric, Inc.

To whom it may concern:

Over the past eighteen years, I have had the privilege of working with Arco Electric, Inc. on various projects throughout the state of Utah. Arco Electric is one of the premier electrical contractors in this state, and has completed numerous projects for Hughes General Contractors, Inc. in that time period. Currently Arco Electric is working on a major expansion and renovation project for the Park City School District which has required critical phasing, staffing and coordination, all while school is in session. Electrical contracts over the past eighteen years with Arco Electric have ranged from \$100,000.00 to \$3,000,000.00, and all have been successfully completed on time and within budget. One of the unique aspects about Arco is that whether it is a smaller design build project, or a complex commercial/industrial project, Arco has completed them with equal importance.

In addition to the quality of work they have shown throughout these projects, we have found that all business aspects of this company are also efficient and professional. All responses to ASI's, PR's, COR's, etc. were always within the time frame allotted, as well as the fact that all pricing for proposed changes were found to be fair and equitable. It should be noted also, that through the warranty period on these projects, there have been few calls; however, when warranty issues have arisen, Arco Electric has responded quickly and efficiently.

As a result of our experiences with Arco Electric, Inc., we at Hughes General Contractors, Inc. consider them as one of the best electrical contractors in the state and would highly recommend them for the work they are pursuing at this time.

Sincerely,

HUGHES GENERAL CONTRACTORS, INC.
